

# White Lab Component Vending Machine

---

## Design and Build Report of a Component Vending Machine for the Undergraduates for White Lab

Prepared by:  
Baden David Morgan  
MRGBAD001

Prepared for:  
Mr. J. Pead  
Department of Electrical and Electronics Engineering  
University of Cape Town

Submitted to the Department of Electrical Engineering at the University of Cape Town in partial fulfilment of the academic requirements for a Bachelor of Science degree in Mechatronic Engineering

October, 2016

**Key words:** this and that

# Plagiarism Declaration

1. I, \_\_\_\_\_, know that plagiarism is wrong. Plagiarism is to use anothers work and pretend that it is ones own.
2. I, \_\_\_\_\_, have used the IEEE convention for citation and referencing. Each contribution to, and quotation in, this report from the work(s) of other people has been attributed, and has been cited and referenced
3. This report is my, \_\_\_\_\_, own work.
4. I, \_\_\_\_\_, have not allowed, and will not allow, anyone to copy my work with the intention of passing it off as their own work or part thereof.

# 1 Introduction

Well, and here begins my lovely article.

## 1.1 Subject and motivation for the Research

meh

## 1.2 Background to the Research

adding it here

## 1.3 Objectives of this Research

adding more

### 1.3.1 The Significance of the Research

a little here

## 1.4 Scope and Limitations of the Research

something something

## 1.5 Plan of Development

blah blah

## 2 Literature Review

some more stuff

# **3 Design and Prototyping Methodology**

In order to begin the design process a clear methodology was needed to proceed in order to get the best results. This included a set of rules to follow when designing and testing prototypes and more. This section aims to discuss these and elaborate on why it will make the design process more effective.

## **3.1 Design**

The methodology behind the design will be reviewed first:

### **3.1.1 Basic Rules**

In order to make an effective design certain constraints must first be applied to limit the scope and complexity of the design
